RE: Shaft Abandonment, Texasgulf, Cane Creek Mine,
ACT/C19/005, Grand County, Utah

The shaft abandonment plan as submitted by Texasgulf and received at the Division on January 3, 1986 is almost entirely complete. I have one minor comment:

Page 6 - Cost Estimate to Plug #1 Shaft Solution Mine
Salt from #1 Shaft

"Install 2,800 ft - 8 in Pipeline from River to Shaft" was changed from \$4,200 in the previous submittal to \$1,500, a difference of \$2,700. I was unable to find the justification in the plan. Therefore, the cost for removing salt should be:

\$128,620.00 changing the total cost for plugging
shaft #1 to \$478,718.00.

If you need any further clarification, please let me know.
